TONGA PHILATELIC BUREAU

This souvenir sheet of 6 stamps contains images which were photographed on Tonga on a beautiful day in 2012. The images were all taken on the coastline at Houma. Sea water can spurt as high as 60ft (18m) into the air through holes in the coral reef. An added feature to each stamp are hand sketched depictions of various fish from the Pacific Ocean.

2 values are \$3, 2 values are \$4, 2 values are \$5

Each stamp size is 38x30.56mm.

The Blow Holes of Tonga found along the coastline at Houma, 14.5km (9 miles) from Nuku'alofa. Sea water spurts some 18m (60ft) into the air through holes in the coral reef.

This stretch of coastline is known as the Mapu 'a Vaea (the Chief's Whistle) by Tongans because of the whistling sound made by the geyser-like spouts.
